

Novimet®

Rumen Bypass Methionine

SUPPORT - SOLUTIONS - RESULTS

Marsyt

An Agricultural Company
Since 1995

Proven in University Trials and On-Farm

Novimet® has been proven effective in university research trials and has also been used successfully in diets of high performing dairy cows.

Production Results – Study Conducted at the University of New Hampshire

<i>Production Results</i>	<i>Novimet</i>	<i>Smartamine M</i>
<i>Milk production (kg/d)</i>	42.7	41.7
<i>Energy corrected milk (kg/d)</i>	41.7	41.6
<i>Milk Protein (%)</i>	3.05	3.09
<i>g milk protein yield/d</i>	1305	1289
<i>Feed Conversion (milk yield/DMI)</i>	1.86	1.84

Table 1. Production results of Novimet in comparison to a competitive product. Both treatments were fed at 12 g bioavailable Met/d. There were no statistical differences in production between treatments.
